

weBoost RV 4G Booster Kit Cell Phone Signal Booster Kit For Your RV, Trailer or Motorhome

Part No. 470201

This high powered cell phone signal booster kit from weBoost has been designed for easy DIY installation in your RV, Trailer or Motorhome.

If you're planning a trip to a remote location, this weBoost kit will significantly improve cell phone call quality and reliability in your RV. The booster will also improve data connections and streaming for tablets, smartphones and other cell-connected devices.

Don't let poor cell phone reception spoil your family vacation. This weBoost Cell Phone Signal Booster Kit comes with all of the items that you need to install a powerful cell signal amplifier in your trailer or RV.

The booster is easy to hook-up and operate. All you need to do is park your RV and point the kit's special directional antenna towards the nearest cell tower. Smartphone apps are available to help you with antenna set-up.

The weBoost RV 4G booster is compatible with all US and Canadian carriers. The amplifier is self-adjusting, with a simple 'traffic light' display showing the status of each cell band.

Features:

- Designed for use in a parked RV or motorhome
- Maximum coverage area of 1,500ft²
- Handles cell voice & data for the whole family
- Comes with all antennas, hardware & cables
- Easy to install — no special tool or skills needed
- Smartphone apps available to help with set-up
- Self adjusts to local signal strength
- LED 'traffic light' channel status display
- Works with all USA & Canadian carriers
- Carries FCC and Industry Canada certification
- 60 Day money back guarantee
- US manufacture & support
