

weBoost fixes weak cellular signal in RV's

Drive 4G-X RV (470410) MSRP \$499.99
Order Now.

weBoost introduces the new Drive 4G-X RV, its most powerful in-vehicle cellular signal booster kit certified for use anywhere in the US and Canada.

The power of the tower in your RV!

The Drive 4G-X RV boosts voice, text and data with max FCC-allowed 50 dB system gain, enhancing 4G LTE, as well as 3G network signals, up to 32X. RVers get fewer lost connections and dead zones, better call quality as well as faster data uploads and downloads whether parked or in-motion in their RV.

Works in all classes of RV; Class A, Class B, Class C and all towables.
