

eqo booster guide

weBoost's new and revolutionary eqo (/'eko/) booster brings in the home and small businesses relief with reliable cellular signal using a product that is easy to install and designed for living room aesthetic.

HIGHLIGHTS

EASY INSTALLATION

Installation can be completed in about a minute, sparing consumers cost and time-intensive professional installations. Anyone who can plug in electronics can install the eqo.

DESIGNED FOR THE MODERN HOME

Developed with simplicity, performance and style in mind, the eqo Booster is the first plug-and-play booster that does not require an exterior antenna.¹ Today's consumer and business users will find it nicely suited to fit the function and aesthetics of their home living room or small office with its clean, cable-free look.

EXTREMELY CAPABLE

eqo improves coverage up to 32X indoors in 1-2 rooms (1,200 sq. feet). It works for multiple users simultaneously, on all cellular devices, all cell services, including 4G LTE, and all carriers in North America.²

**No internet connection is required*

HOW IT WORKS

The eqo Booster installs quickly because it is comprised of just two components: an antenna and a main amplifier unit. The main unit is placed near a window or where cell signal is strongest. The antenna is placed in the home, at least 8 feet from the main unit, where stronger signal is needed. The main unit communicates with the cell tower and boosts the incoming and outgoing signal.

SPECIFICATIONS

Model Number	473120	
Frequency	Band 12/17	700 MHz
	Band 13	700 MHz
	Band 5	800 MHz
	Band 4	1700/2100 MHz
	Band 2	1900 MHz
Max Gain	70 dB	
Impedance	50 Ohms	
Power Req	5V/2.5A	
Connector	SMA-Female	
Dimensions	11.975 x 9 x 4 in	
Booster Weight	2.435 lbs	

For more information, please call 1-800-501-3153 or visit <https://cellphonesignalbooster.us/weboost-eko-signal-booster-kit/>

¹ The eqo Booster does have a provision to connect to an outside antenna for maximum performance and coverage, if desired, but this antenna is not required and, therefore, not included in the package.

² The eqo Booster is a Federal Communications Commission and Industry Canada certified product.
